

3E Energy Solutions- Installer

3E = Energy Efficiency Expert

Position Responsibilities:

The 3E Installer (3EI) is an entry-level position on the Civic Works' 3E Energy Solutions team. 3E Energy Solutions works to improve the energy efficiency of residential and commercial properties. The team uses various commercial products to seal the building envelope to make buildings safer, more comfortable, and more affordable. The 3EI will report to the 3E Project Leaders and the 3E Project Manager. Daily responsibilities of the 3EI include:

- working efficiently and safely under the direct supervision of the 3E Project Leader and/or 3E Project Manager to provide quality workmanship
- Meeting daily with the 3E Project Leader to review the days assignment
- loading and unloading equipment, tools and materials from the 3E vehicle
- taking direction and constructive criticism from the Project Leaders
- using ladders, lifts and/or fire escapes to access the worksite
- working cooperatively as part of a team to apply Cool Roof materials, spray foam insulation, cellulose insulation, and other weatherization materials
- respecting the validity of a homeowner's wishes and the value and integrity of a homeowner's property
- providing positive and professional representation of 3E Energy Solutions and the Civic Works organization in the community
- completing ALL other tasks as assigned by the 3E Project Leader or 3E Project Manager

Position Requirements:

All 3E Installers must:

- have the physical ability to climb up and down a ladder safely and efficiently
- Enter crawl spaces and attic cavities without hesitation
- be reliable and punctual
- conduct themselves in a courteous and professional manner
- be comfortable working at heights of 30 feet or higher
- be willing and able to follow orders and take instructions
- respect safety at all times

How to Apply:

Interested candidates must submit a resume to John Mello at energysolutions@civicworks.com or bring a completed application to John Mello at Civic Works at 2701 St. Lo Drive Baltimore, MD 21213.
